RE: ML 48313-MP Limestone Permit
DOGM # M/039/013

Dear Mr. Haas,

Ownership of T18S, R1E, SLB&M, E2E2, SW4SE4, SE4SW4, Section 31 and All, Section 32, Sanpete County is vested with the Utah School lands Trust. You presently have S2SW4, Section 32 under ML 48313-MP for a limestone quarry.

The Trust Lands Administration does not object to the placement of one advertising sign upon trust lands in Section 31 near the front access to your quarry location near State Route 28 provided that you comply with all requirements of the Utah Department of Transportation and all zoning ordinances of Sanpete County. Please contact UDOT and Sanpete County to ensure that you are in compliance.

The expiration date for ML 48313 is June 30, 2003. The permit may be extended or renewed at the option of the Director if determined to be in the interest of the trust. The interest of the trust is served by optimizing the generation of revenues. As the expiration date for ML 48313 draws nearer we may discuss details of a possible extension or renewal of the permit.

I look forward to your continued development of the lands under ML 48313 into an economically viable limestone quarry.

Sincerely,

John T. Blake
Mineral Resources Specialist
